This schedule is accurate at the time of going to print. Content may be subject to amendment and we reserve the right to cancel or change advertised courses or other information.

# IOSH

# MANAGING SUSTAINABLY®

## Why managing sustainably matters

Many organisations understand that people drive success, but few invest in developing their workforce systematically.

The Covid-19 pandemic highlighted that occupational safety and health (OSH) is essential to effective business management.

By ensuring staff are safe, healthy, and fulfilled, businesses can build a positive reputation, attract talent, and inspire loyalty.

This course explores the value of human capital and how strong OSH management supports a positive culture and sustainable success.

## Who is the course for?

This course is ideal for managers and supervisors who want to achieve long-term business sustainability by placing people at the heart of their strategy. It highlights the value of human capital, explains how occupational safety and health (OSH) connects to the wider sustainability agenda, and shows how this approach can strengthen and sustain business success.

## How does your business benefit when your employees attend this course?

- Immediate payback: your managers and supervisors will return from the training motivated and inspired, ready to introduce social sustainability principles to your organisation.

- Longer-term gain: your managers and supervisors will be able to use what they have learned to implement social sustainability measures and monitor their performance.
- You will benefit organisationally from the insights your employees gain through memorable and thought-provoking discussions and activities.

# MANAGING SAFELY®

The IOSH Managing Safely® course is a globally recognised training programme for managers and supervisors, providing practical skills to manage health and safety effectively. Delivered over three days, it covers hazard identification, risk assessment, accident investigation, and monitoring safety performance, helping participants create a positive safety culture.

On completion, participants receive the IOSH Managing Safely® Certificate; an internationally recognised qualification that demonstrates competence in workplace health and safety.

The course equips managers to reduce risks, improve compliance, and apply practical safety measures immediately.

# WORKING SAFELY®

The IOSH Working Safely® course is a recognised health and safety training programme for employees at all levels. It provides practical guidance on identifying hazards, understanding risks, following safe procedures, and contributing to a positive safety culture.

Participants who complete the course receive the IOSH Working Safely® Certificate; an internationally recognised qualification demonstrating competence in essential workplace health and safety practices.

# 2026 MARKS OUR 60<sup>TH</sup> BIRTHDAY

In 2026, Alliance Learning proudly marks its 60th birthday — six decades of supporting learners, employers, and communities through high-quality training and apprenticeships.

Since our beginnings in 1966, we've grown and evolved, but our mission remains the same: to help people develop their skills, achieve their goals, and build brighter futures.

As we mark 60 years of delivering quality training and apprenticeships, we want to express our sincere thanks to all our customers and partners. Your continued support and loyalty have been key to our success and growth over the years.

At Alliance Learning, we truly value the relationships we've built and look forward to continuing to support your training and development needs for many years to come.

Thank you for being part of our journey!

# OUR HISTORY

Alliance Learning was known as the Bolton and District Engineering Training Group when it was first registered in 1966, and the five original staff members were based in a portable cabin at the former Horwich Technical College. The Training Group was set up by a partnership between the Engineering Industry Training Board, local Engineering Employer's Associations, Horwich Technical College and several prominent local employers and was managed by Bert Krikken, a former senior training officer at British Rail Engineering Works.

Initially Bolton and District Training Group was involved in apprentice recruitment, training and monitoring. As the business grew it secured premises at 602 Chorley New Road and the company was re-registered as Bolton Engineering Training Group between 1986 and 1988. With more space and a dedicated training room, the Group expanded their services and offered First Aid and Supervisory Training in addition to Apprenticeships.

In 1989 the group moved to the Hurst Building in Horwich, which the business still occupies today. Alliance Learning was formed through the merger of Bolton Training Group and CLEEA Training in 2001.

Back in March 2020, Alliance Learning became part of the University of Bolton Group (now the University of Greater Manchester), when the organisations officially joined forces, allowing learners from Alliance Learning to progress seamlessly from Level 1, right up to Level 8 degrees.

Today, the business continues to grow and expand the range of training courses and Apprenticeships on offer.

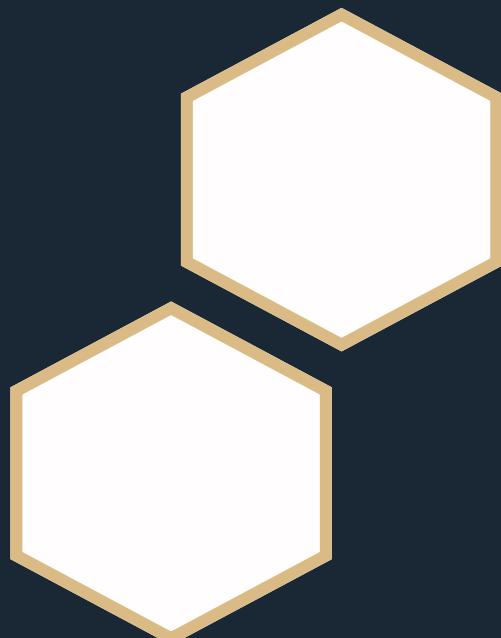

# COMPANIES WHO WORK WITH US

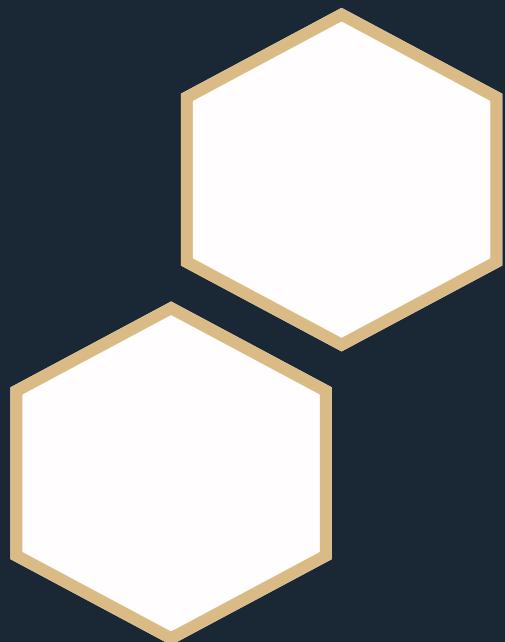

As a valued member of Alliance Learning, you enjoy a range of exclusive benefits designed to help your business grow and stay ahead in today's competitive market.
